[pashupati-git](#)

Computer Engineering graduate with hands-on experience in **Flutter application development**. Currently working as a Flutter Intern at MindRisers Institute of Technology, contributing to real-world mobile applications using Clean Architecture, MVVM, and Riverpod state management. Skilled in building scalable, localized, and high-performance applications based on Figma UI designs, integrating REST APIs, Firebase services, and Hive for offline storage. Passionate about writing clean, maintainable code and continuously learning modern mobile development practices.

EXPERIENCE

Flutter Developer Intern

MindRisers Institute of Technology — Kathmandu

2025 – Present

- Developing production-ready Flutter applications following Clean Architecture and MVVM pattern.
- Implemented state management using Riverpod for scalable and testable application logic.
- Built multi-language support (English & Nepali) using Flutter localization.
- Converted Figma UI/UX designs into pixel-perfect, responsive Flutter interfaces.
- Integrated RESTful APIs for dynamic data handling and business logic.
- Worked with Firebase Authentication, Firestore, and Cloud Storage.
- Implemented Hive local database for offline data persistence and caching.
- Collaborated with mentors and team members using Git/GitHub for version control.
- Focused on performance optimization, clean code practices, and reusable components.

EDUCATION

Bachelor

Nepal Engineering College

Changunarayan, Bhaktapur

Bachelor in Computer Engineering

July, 2021 - Aug, 2025

NEB

White House Secondary School

Khumaltar, Lalitpur

Physical Science

Apr, 2018 - Apr, 202

SEE

Advance International Model School

Lagankhel, Lalitpur

Jan, 2005 - Jan, 2018

PROJECTS

Some of the projects are:-

Totto – Buy and sell locally with ease. Chat, negotiate, and connect!

- Built a community-focused buy and sell mobile app with real-time chat, price negotiation.
- Implemented secure authentication using Phone OTP and Google Sign-In.
- Developed advanced UI, profile setup and role-based marketplace with multilingual support.
- Tech: Flutter, Firebase, REST APIs, Riverpod, Python Django as backend.
- [Playstore link to app.](#)

LeafCare – ML + Ecommerce App

- Integrated plant disease detection using CNN (TFLite).
- Users can upload leaf images for disease detection and shop for related products.
- Tech: Flutter, Firebase, Python (Jupyter)
- [GitHub](#)

HomeLink – Property Listing Web App

- A property listing app for renting and selling with advanced filtering.
- Implemented user authentication and property posting features.
- Tech: MERN Stack (MongoDB, Express, React, Node.js)
- [GitHub](#)

Ecommerce app – Flutter + Firebase

- Product browsing, favorites, and cart with authentication & storage.
- Tech: Flutter, Firebase
- [GitHub](#)

Recipe app – Flutter + Firebase

- Recipe search app displaying ingredients and cooking methods.
- Tech: Flutter, Firebase
- [GitHub](#)

ACHIEVEMENT & JOURNEY

- Built a strong foundation in programming (C++, Java, C#) and advanced to Data Structures & Algorithms.
- Transitioned into Web Development (MERN) and later into Mobile Development (Flutter).
- Applied knowledge in real-world projects combining ML, ecommerce, and cross platform app development.

TRAINING & CERTIFICATIONS

Flutter Training – Mind Risers Consortium (2025)

- Hands-on training in Dart, Flutter, Firebase, Riverpod (state management), Hive (local storage), and localization.
 - Strengthened teamwork, problem-solving, and app scalability skills.
 - [Certificate Validation Link](#)
-

SKILLS

Mobile App Development

- Flutter and Dart(Android & iOS)
- Hive Local Storage
- Clean Architecture, MVVM
- State Management: Riverpod
- Localization (English & Nepali)
- Advanced UI Development (Figma → Flutter)

Backend & Integrations

- REST API Integration
- Firebase Authentication
- Cloud Firestore
- Node js with Express

Programming & Concepts

- C++, Java, JavaScript , C#, Python (ML basics)
- Data Structures & Algorithms
- OOP Principles

Tools & Platforms

- Git & GitHub
 - Postman
 - Jupyter Notebook
 - VS Code, Android Studio
-

LANGUAGES

- English (Fluent)
 - Nepali (Native)
 - Hindi (Proficient)
-
